Details Of Sodium Gluconate

Item	Standard	Result
Description	White crystalline powder	Meets the requirements
Heavy metals(mg/kg)	≤5	<2
Lead	≤1	<1
Arsenic	≤1	<1
Chloride	≤0.07%	<0.05%
Sulphate	≤0.05%	<0.05%
Reducing substances	≤0.5%	0.003
PH	6.5-8.5	7.1
Loss on drying	≤1.0%	0.005
Assay	98%~102.0%	0.9905

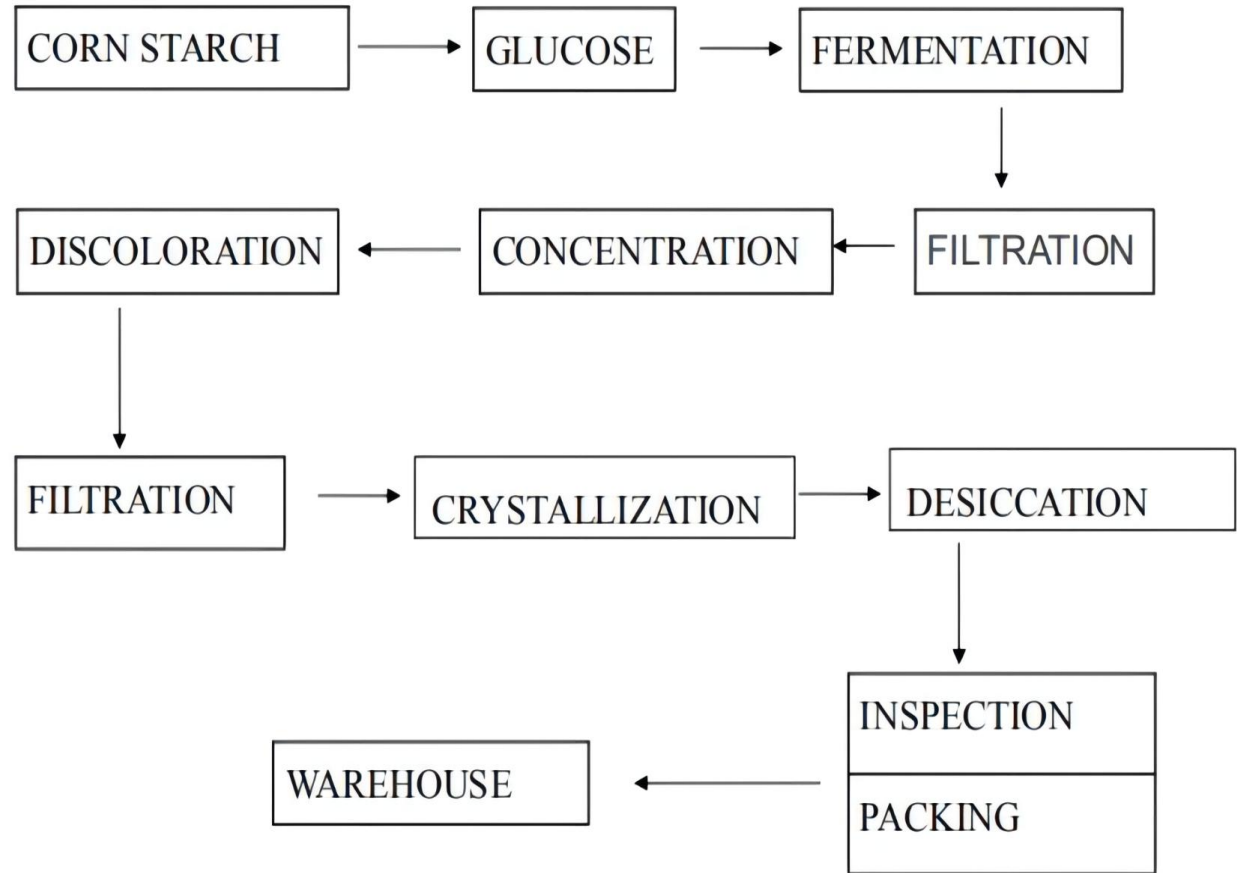

Application

Sodium gluconate used in food industry, can effectively prevent the occurrence of low sodium syndrome, so it can be used as a food additive.

Sodium gluconate has good taste threshold, no irritation, no bitter taste, salt taste quality is close to salt, the threshold is much higher than other organic acid salt, is 5 times of salt, sodium malate 2.6 times, sodium lactate 16.3 times.

Product Process

Packing and Delivery

Powder, 1-10KG, Carton Box

Powder, 10-25KG, Paperboard Drum

Liquid, Iron Drum or Plastic Drum
